Subject: Pickering Harbour Project

Hello Tony,

I made contact with Kevin Powers of OPG yesterday at about dinner time, and at the same time found out we had finally received a response from CNSC to the City's letter requesting a minor variance to the exclusion zone. Not the response we wanted, but not completely a disaster either.

I committed to reach out to Kevin today to arrange a meeting with yourself, OPG and our planners to discuss next steps. Cathy is away this week, but call me when you can.

Kevin is thinking OPG can assist in carrying the ball, but is thinking more along the lines of what the Mayor was thinking on Monday. I will explain more when we talk.

Tony
